RE: G2-28543 Cronauer
G2-28560 Marx

Dear Ms. Fox:

The Jamestown S'Klallam Tribe would like to comment on the above referenced applications for water rights, which are located in the Dungeness-Quilcene Water Resource Pilot Project Planning Area. Both projects are located in areas served by the Dungeness Irrigation system, and may need further analysis based on concerns for hydraulic continuity with local surface waters.

Cronauer G2-28543

The application does not indicate why 60 gpm are needed for domestic use for one home. The project is located near Casselery Creek.

Marx G2-28560

The application does not indicate why 60 gpm are needed to serve 8 homes. Domestic use needs to be defined. The project is located near Matriotti Creek, a tributary of the Dungeness River.

Please notify the Tribe of future action by the Department of Ecology. Thank you.

Sincerely,

Ann E. Seiter

Dear Mr. Cronauer:

Re: Ground Water Application No. G 2-28543

Your application for the appropriation of water has been assigned the above referenced number. Please refer to this number in future correspondence.

Enclosed is an amended notice of your application which must be published once a week for two consecutive weeks in a qualified legal newspaper of general circulation in the County or Counties in which the storage, diversion, and use is to be made and in other newspapers as directed. A list of these newspapers in your county is enclosed. The applicant is responsible for the payment of the publication. Please read the notice carefully to make sure it is correct. Should you find an error, please return the amended notice to our office for correction.

You should mail or deliver the enclosed amended notice to a newspaper regarding publication as soon as possible. When you receive the affidavit of publication with the news clipping from the newspaper, please forward the original to this office promptly. Further processing of the application will not be made until the affidavit is returned.

Since your application is for service of more than one residence, it is considered a public water supply. Public water supply systems are required to be approved by either the Local Health Department or the State Department of Health, depending upon system size. If you have not already done so, I suggest that you contact your Local Health Department or DOH, Drinking Water Section, Olympia, Washington, for further information.

Sincerely,

Sheri Fox

Dear Mr. Cronauer:

Re: Ground Water Application No. G 2-28543

On July 16, 1992, this office sent a notice to you for publication in a newspaper within Clallam County.

We have not received the necessary Affidavit of Publication and, therefore, cannot continue to process your application.

Please reply within thirty (30) days or, if you are no longer interested in the application or obtaining a water right, please sign the statement below and return to this office.

I am no longer interested in processing the Ground Water Application No. G 2-28543 or obtaining a water right and I hereby agree to it being cancelled.

I understand that after the effective date of cancellation, any withdrawal of ground water exceeding 5000 gallons a day and irrigation of more than one-half acre is a violation in accordance with Chapters 90.03 and 90.44 RCW and is subject to enforcement action.
